1. Claims 13-17 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on November 21, 2005.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent basis in claim 1 for "the cooking step" (claim 3, line 2) since no positive cooking step is recited in claim 1. Without such a positive cooking step there can be no evaporator. Correction is required without new matter.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1, 3, 5, 6 and 8-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rivier (EP 1 151 673, cols. 13, 14, 17-19) as set forth in paragraph no. 4, Paper No. 20070829.

6. Claims 1, 3, 5, 6 and 8-12 are also rejected under 35 U.S.C. 103(a) as being unpatentable over Aldrich et al (4,154,867, col. 2) or Liebrand (3,738,845, cols. 1-2) in view of Rivier as set forth in paragraph no. 5, Paper No. 20070829.

7. Applicant's arguments filed December 4, 2007 have been fully considered but they are not persuasive. Initially, it should be noted that the "Affidavit" discussed by applicant on page 10 of the remarks has not been attached as Exhibit A. Further, even if such affidavit was attached, it would not be relevant in the instant application since it is an affidavit pertaining to the invention in SN 11/314,042.

Applicant's primary concern with regard to Rivier is that it discloses adding the acidic component after cooking thereby teaching away from applicant's step of adding the acid prior to cooking. Applicant's contention is without merit as Rivier clearly discloses the presence of an acid before cooking of the liquid composition therein at 130 C (col. 13, lines 52-55 and col. 14, lines 28-33). Although Aldrich et al and Liebrand fail to disclose applicant's cooking temperature of 145 C or less in order to prevent significant hydrolysis of the sugar alcohol by the acid, as applicant argues, Rivier renders it obvious to cook at such a temperature in the process of either Aldrich et al or Liebrand, as set forth in paragraph no. 5, Paper No. 20070829. Further, Rivier also renders it obvious to use isomalt or maltitol in place of the sorbitol in Aldrich et al as set forth in said paragraph no. 5.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
